

He de decir que antes de empezar la tarea, ya tenía la cuenta creada en GitHub, lo vi conveniente al ir viendo los apuntes del primer tema del módulo, voy a describir los pasos que di para ello. No se si elegí la opción de Skip en el proceso de registro y si esto puede tener mucha importancia a la hora de trabajar con GitHub, vamos allá.

Me dirijo a la web de GitHub comienzo el proceso de crear una cuenta, Sing up

Como yo ya la tenía creada simulo darme de alta con RESING

By creating an account, you agree to the [Terms of Service](#). For more information about GitHub's privacy practices, see the [GitHub Privacy Statement](#). We'll

En la parte superior izquierda, creo un nuevo repositorio.

Create a new repository

Repositories contain a project's files and version history. Have a project elsewhere? [Import a repository](#).
Required fields are marked with an asterisk (*).

1 General

Owner * carlosfr33 / **Repository name ***

Great repository names are short and memorable. How about improved-sniffle?

Description

13 / 350 characters

2 Configuration

Choose visibility * Public

Add README Off

Add .gitignore No .gitignore

Add license No license

Create repository

Desde aquí ya añadido el PDF de la explicación de los pasos dados

 **Tarea1_ProgramacionGH** Public

 Pin  Watch 0  Fork 0  Star 0

**Set up GitHub Copilot**
Use GitHub's AI pair programmer to autocomplete suggestions as you code.
[Get started with GitHub Copilot](#)

**Add collaborators to this repository**
Search for people using their GitHub username or email address.
[Invite collaborators](#)

Quick setup — if you've done this kind of thing before

 Set up in Desktop **or**  HTTPS  SSH 

Get started by [creating a new file](#) or [uploading an existing file](#). We recommend every repository include a [README](#), [LICENSE](#), and [.gitignore](#).

...or create a new repository on the command line 

```
echo "# Tarea1_ProgramacionGH" >> README.md
git init
git add README.md
git commit -m "first commit"
git branch -M main
git remote add origin https://github.com/carlosfr33/Tarea1_ProgramacionGH.git
git push -u origin main
```

...or push an existing repository from the command line 

```
git remote add origin https://github.com/carlosfr33/Tarea1_ProgramacionGH.git
git branch -M main
git push -u origin main
```

 **ProTip!** Use the URL for this page when adding GitHub as a remote.
